

**Help us improve NHS health and social care services
by taking part in our project**

We want to hear from YOU

Your voice will make a difference

We want to talk people living with learning disabilities about their experience of staying healthy during the pandemic:

- How easy or difficult was it for you to access healthcare?

- Did you get the support you need during lockdown?

- Were you able to get your annual health check?

- Were you offered covid-19 testing or the covid vaccination?

How can I help?

We will ask you if you are happy to take part in a telephone or face to face interview. This will be conducted by a Healthwatch Lambeth trained staff member or volunteer.
