

What's your experience with NHS administration?

- Have you had problems with booking appointments or written correspondence with the NHS?
- Do you have views on how this should be improved?

We want to hear how people's care experience has been affected by poor NHS administration.

We're looking to interview a range of people across Lambeth, from different communities, of different ages, and with short or long-term health conditions.

**Talk
to us...**

If you are interested in speaking to us at an individual or group interview, please get in touch.
